

I am Nicole Pendic (the descendant of family Zamboni) born on August 9th, 1994 and I finished my 8-year elementary education in Catholic School Centre in Tuzla. I finished elementary school with highest grade 5 and I managed to do it every year of elementary school. I just finished high school called Gimnasium Catholic School Centre St. Francis, all 4 years of my high school education I finished with highest average note (5.0).

I would really like to study in City of Trento in Italy, but if I wanted to apply there, I need to have good knowledge of Italian. But, here in school, I only learned English and German and I have recently started taking Italian courses. And I ask you to help me stay in Trento for one year in some family where I could do different chores, go shopping, look after children without any material benefit. Only so I could learn Italian and have home and meals. I have driver's license category B and I could also help Association in Trento if that's possible. I have Croatian citizenship, so I could easily be living in Italy, because from 01.07.2013. I will be citizen of EU. So I ask you if you have any information about some family I could stay with, to let me know. My family would happily take some other student of Italian origin that would like to study in Tuzla. He/She would have free room and meals with all audio - video technology, free internet etc. My apartment is near all faculties and in the center of my city. Once more, I would like you to help me.
