

Trento, July 18th 2013.
Prot. 846/fb

Dear Club,

every year the Association earmarks part of its budget to support activities by the Clubs and their action on the field. In order to use these resources in the most efficient way, it is necessary to draw up an annual scheduling, which has to take into account the needs of the Club both for their daily management and for the organization of particular events.

Therefore, we ask you to fill the attached scheduling form and to send it to the Association, in order to allow us to arrange an activity plan concerning the projects to be realized during 2014.

The forms have to reach the Association by October,30th and they have to include planned events/activities, a cost estimate expected for these event and possible requests for financing by the Association.

It is fundamental that every Club should present its own activity scheduling since non-planned activities will not be taken into account as for the partition of financings.

Uniquely with a global framework of the initiatives and the requests at a global level, we will be able to enforce a more rational management of the resources made available by the Association and the Province in favour of the Clubs'.

Thank you in advance for your collaboration.

Yours sincerely,

Il Direttore
Anna Lanfranchi
